VERSION 1.1.0

Dear dm+d User,

dm+d Guidance Documents

An updated version of the dm+d Implementation Guide (Primary Care) (v2.0) has been published on the [NHSBSA dm+d](#) website. The updated guide includes additional information on how to identify 'Wholesaler items' and general updates to bring it in line with the [dm+d Editorial Policy R2 v3.5 July 2020](#). Links to two new documents entitled "dm+d Frequently Asked Questions (FAQ)" and "Secondary Care Guidance on Mapping to 'Specials' in dm+d" are also available on the same website.

Advanced Notice of Change to one of the two Hospital flags/values in dm+d

The dm+d model hosts two 'hospital' values.

Firstly, at the AMP level, there is an 'Availability Restrictions / Restrictions on Availability' attribute and one of the nine values that can be selected here is a 'Hospital Only' value. Secondly, there is a 'Hospital Indicator' attribute at the AMPP level.

At the last quarterly dm+d Content Committee governance meeting this topic and how to prevent any potential misinterpretation of the information reported in the dm+d files, was discussed.

The Content Committee decided to continue to maintain information on 'hospital only packs' at the AMPP level but to retire the 'Hospital Only' value at the AMP level.

This communication therefore gives the dm+d user community three months advanced notice that we plan to retire the AMP 'Hospital Indicator' value as an option against the 'Availability Restrictions / Restrictions on Availability' attribute in the Spring.

All the AMPs that currently have the value 'Hospital Only' at the AMP level will be switched to the 'Availability Restriction' value of 'None'.

If you have any significant concerns, please email nhsbsa.dmdenquiries@nhs.net with clarification and basis of any concerns you may have

DHSC require these concepts to be made available and visible (similar to licensed medicines) in prescribing and dispensing systems for the time being.

Specials/Imports added at request of DHSC to mitigate shortages in the supply chain
