VERSION 8.1.0

Dear dm+d User,

Ingredient Strength Corrections

The ingredient strengths in the following VMPs have been corrected as shown:

VMP Name	VMP SNOMED Code	Ingredient Name	Ingredient Boss Name	Ingredient Strength	Ingredient Strength UOM
Ethyl esters of iodinated fatty acids of poppy seed oil (Iodine 480mg/ml) solution for injection 10ml ampoules	10604311000001109	Ethyl esters of iodinated fatty acids of poppy seed oil	Iodine	480	mg/ml
Iohexol 755mg/ml (Iodine 350mg/ml) solution for injection 100ml plastic bottles	9170711000001109	Iohexol	Iodine	350	mg/ml
Ioversol 741mg/ml (Iodine 350mg/ml) solution for infusion 100ml pre-filled syringes	7981611000001108	Ioversol	Iodine	350	mg/ml

These historical errors have just come to our attention and this is the earliest opportunity to alert dm+d users.

GTIN (Global Trade Item Number) Transfer Log Update

From 1st July onwards a new 'Transfer Reason' column has been added to the GTIN Transfer Log accompanying the weekly dm+d files. With respect to supporting GTINs, we are only as good as the information that we receive at the NHSBSA. The primary source of the information are supplier companies (*manufacturers / MA holders / brand owners*) and the accountability for accurate and up to date information relating to GTINs rests with them. The extra column in the GTIN Transfer Log is an attempt to provide some more insight for registered recipients of the weekly dm+d files.

Advanced Notice Regarding SNOMED CT Updates

For the dm+d files dated Monday 6th September, we plan to make some further SNOMED CT changes to concepts at the following levels:

- Pharmaceutical form
- Route of administration
- Unit of measure
- Virtual Therapeutic Moiety (VTM)

If you require insight into which concepts are changing, please email nhsbsa.dmdenquiries@nhs.net. However, where UK extension SNOMED codes are to be used, these can't be future dated, so we can't provide fully comprehensive details.

Nevertheless, we trust you appreciate this courteous offer of providing earlier insight if you require this.

DHSC require these concepts to be made available and visible (similar to licensed medicines) in prescribing and dispensing systems for the time being.

Specials/Imports added at request of DHSC to mitigate shortages in the supply chain

Invalidations

None

Advance Notice of Invalidations

The following concept is being invalidated mid-August. We have been trying to align and standardise the 'Water for injections' VMPs in dm+d. As part of this 'housekeeping' exercise, the following is some further related invalidation information.

Concept to be made Invalid	Replacement concepts
VMP Water for injections 500ml bottles	VMP Water for injections 500ml bottles (formerly Water for infusion 500ml polyethylene bottles - amended 01/07/2021)
VMP SNOMED ID 4958011000001105	VMP SNOMED ID 4263311000001108 - allocated to Water for injections 500ml bottles (formerly Water for infusion 500ml polyethylene bottles - amended 01/07/2021)
VMPP 1	VMPP 1 (already on database under VMP having name change)
